Crimson Irregulars
Project Summary

(The campaign will encompass seven maps. The first five maps will be made in chronological order linked to the overall story. Once those five maps are completed, two prequels, that are already partly finished, will be released.)

(“This campaign will not only have an orginal story line, maps, and scripting. We will also be utilizing UACT’s digital studio to record our own custom voices. These voices will be recorded for mission briefing sessions and in-game use.”)

(“More information and maps can be obtained at our website, http://ci.uat.edu”)
